

Bylong Industries introduces the

AC-50 EV Conversion Kit.

An AC conversion kit has many advantages over other power systems, including:

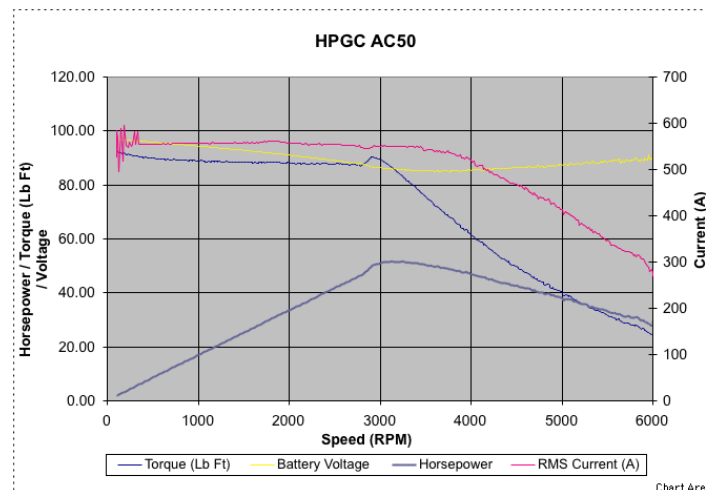

- Continuous power for hill climbing
- Higher RPM
- Regenerative Braking capability
- Greater range
- Overall power

Our kit includes the following components:

- AC-50 AC Motor
- Curtis 1238 controller
- Curtis 840 LCD gauge
- Wiring loom

\$5750 + GST

AC-50 EV Conversion Kit
